

LAMITAK EXCLUSIVE COLLECTION

Collection 2021-22
Protak | Solid Core | artäk | Repeatable | Bookmatched

The background of the advertisement is a full-page photograph of a rugged, steep cliff face. The cliff is composed of dark, layered rock with patches of snow or light-colored mineral deposits. Several tall, thin evergreen trees are scattered across the upper part of the cliff. In the foreground, a calm body of water reflects the cliff and the sky. The water is a deep blue-green color. The overall mood is serene yet powerful, emphasizing the natural beauty and texture of the environment.

EXPERIENCE THE DIFFERENCE

The Lamitak Exclusive Collection fulfills the desire of daring decorators seeking materials that are evident in individualism and technical superiority. With a focus to create sublime finishing and detailing, these laminates are abstractions inspired by nonconventional, niche designs and materials. Experience the difference with the Exclusive Collection that serves as a reminder of the inspiring feats of art and quality, above and beyond what you would expect from conventional laminates.

- ↗ Newedge available
- ⬆ Best applied vertically
- 📏 4' X 10' (1220mm x 3050mm)
- 🔍 Best viewed in large format
- ➕ Anti-Bacterial

USE AND CARE GUIDE

Lamitak laminates are durable, abrasion resistant and impact resistant under normal use. To better care for your laminates:

- Do not chop, slice, or hammer directly on the laminate surface.
- Do not use sharp objects such as knives or box-cutters on the laminate surface.
- Do not place hot cookware directly on the laminate surface.
- Do not expose the laminate to temperatures above 60°C for prolonged periods, such as placing hot frying pans or dishes directly from the burner, which may cause the laminate to separate from substrate.
- Do not flood the laminate or introduce water at joints, which may cause the substrate to expand.

CLEANING

Our laminates are easy to clean:

- Use warm water and a clean non-abrasive cloth to remove most stains.
- Use a mild household cleaner or detergent, if necessary and rinse with clean water.
- Dry the surface with a clean non-abrasive cloth.
- Special attention may be required for stubborn stains - apply a small amount of thinner on a clean non-abrasive cloth to gently remove stain and rinse the area with another clean damp cloth. Avoid using any cleaning agent containing acid, alkali or sodium hypochlorite, as they may corrode, discolour or ruin the surface of the laminate.

BUYERS SAFEGUARD

All our laminate designs are crafted and fine-tuned to the slightest detail. Insist on the original and be certain of its authenticity. We recommend checking your finished product against the samples in this Lamitak portfolio. Alternatively, you may request for sample laminate chips at any of our offices.

DISCLAIMER

Kindly inspect all products prior to installation. We warrant solely to the original Buyer that the products will be free from defects in materials under guidelines of ISO 4586 - Part 1 & 2 and NEMA Standards, when given normal, proper and intended usage, and limited to the extent of the cost of product only for a period of 3 years from the date of sale to the Buyer.

SOLID CORE

HOMOGENEOUS LAMINATE

Reach a new level of refinement with Lamitak's Solid Core laminates. With one consistent colour throughout the laminate sheet, the telltale brown edges of regular laminates are eliminated, resulting in crisp and sleek designs for a superior level of detailing. Lamitak's Solid Core range is not just limited to solid-colour laminates but also includes timber-, concrete- and stone-inspired designs.

Disclaimer: Laminate sheets are produced in 1220 x 2440 mm and are suitable to be cut to size to form a seamless bookmatched effect. However, the accuracy of bookmatching is dependant on the size of the sheet.

MONTIGNOSO

BOOKMATCHED LAMINATE

Montignoso is a commune located in the Tuscany region of Italy, famed for its rich beautiful nature and spectacular views of the Apuan Alps. Bold whilst simultaneously timeless, the dark background allows the natural and unique veins of the marble to stand out, making it perfect for every kind of interior application.
